# SALT SAFETY RULES & PROCEDURES

## Milton Rents, Inc.

### Salt Facility Safety Rules & Policies

- Remain in your vehicle at all times unless you are in the designated tarping area.
- Tarping and cleaning only should be done in the designated tarping area.
- Do not climb on trucks; use designated tarping and the cleaning station.
- Stay within designated traffic lanes.
- Speed Limit: 5 mph
- Do not enter the loading area until the truck ahead of you has cleared the loading area.
- One truck on the scale at a time.
- Do not move beyond the inbound & outbound scale until you see the green light.
- Do not leave your vehicle unattended.
- Loads shall not exceed the vehicle's GVW or maximum weight allowed by an overweight permit.
- Trucks without a valid registration and overweight permit (when applicable) will not be loaded.
- Dump trailers and tailgate spreaders will not be loaded.
- No Trespassing – No Illegal Dumping
- No cash will be accepted at the scale house. Cash payments must be made at Milton Rents main office during normal business hours. *(Mon-Fri 7am-5pm , Sat 8am – Noon)*
- **Please contact your sales representative or the scale house to give notification in advance for any order that will be picked up by a 3<sup>rd</sup>-party trucking company on your behalf.**

**ALL DRIVERS ARE TO ADHERE TO THE RULES & POLICIES LISTED ABOVE. ANY DRIVERS IN VIOLATION WILL NOT BE LOADED AND MAY FACE SUSPENSION OF SERVICES.**

**ALL DRIVERS ARE REQUIRED TO ADHERE TO ALL D.O.T. REGULATIONS AND ALL OTHER APPLICABLE VEHICLE AND TRAFFIC LAWS.**

Monday – Friday 4:00am – 5:00pm, Saturday & Sunday 5:00am – 10:00am

*Hours subject to change during holidays and warm-weather patterns*

Text “**dukesalt**” to 877-618-6757 to register for updates on extended hours during a weather event.

# BAGGED ROCK SALT & DEICERS - A TO Z

We serve municipal, wholesale, commercial and residential customers. **Contact David Szydowski, Division Manager, Ice Control / Transportation** to request bulk and packaged product quotes.

| Direct: (585) 292-9871 | Mobile: (585) 703-1936 | Email: David\_szydowski@miltonrents.com

## Good

### AMERICAN ROCK SALT

Proudly carrying American Rock Salt in 50 pound bags and bulk. A USA company located in Upstate New York. Widely respected for its ice melting products for municipal and commercial customers.

### ICE CUTTER ICE MELTER

When pre-applied prevents snow and ice from bonding to the surface area. As Ice Cutter goes to work, its time released formula stays on the surface area longer, helping to control the freeze / thaw cycles.

### PRO-GRADE COMMERCIAL STRENGTH

The #1 choice for many commercial and industrial properties. It's low temperature performance is -15 degrees Fahrenheit and is colored to enhance application visibility.

### ICE BEATER TREATED ICE MELTER

Specially Formulated with Beet Extract Solution. Performs at Lower Temperatures and color coated for visual coverage (Purple Tint).

## Better

### POLAR ICE MELT FLAKE

Long lasting time-frame. Calcium flake formulation capably melts snow and ice to negative 24 degrees Fahrenheit. Extreme visibility with blue color indicator. Available in 50 pound bags.

### STEALTH BLUE

Premium ice melter, enhanced with CMA & Calcium Chloride. Exceptional, fast acting formula is super effective at lower temperatures. Color coated blue for visual coverage.

### MR. MAGIC

Fast acting, long lasting ice melt requires less than competing ice melts for same desired effect. Easier on the environment, concrete, brick, wood & pets.

### PRO GRADE FIRE CRYSTAL

Infused with Calcium Chloride and CMA, this Ice Melter produces superior results. Fast acting, long lasting colored crystals.

## Best

### ENVIRONMELT ICE MELT

Widely respected as THE Green Solution. Advanced formulated with CMA (Calcium Magnesium Acetate) for exceptional melting. Not as harmful to vegetation. Available in 50 pound bags.

### VAPORIZER CALCIUM CHLORIDE

Pellets effective to -25 degrees Fahrenheit. The most powerful Ice Melt product on the market, works instantly and is long lasting. This 90% calcium chloride pellet is available in 50 pound bags.

### VAPORIZER CALCIUM FLAKE

Calcium Flake effective to negative 30 degrees Fahrenheit. Calcium Flake attracts moisture making it perfect for dust control. Available in 50 pound bags.

### PRO GRADE POLAR VORTEX

Pro grade ice melt with visible color indicator. Contains Calcium, Magnesium, Potassium, Sodium & CMA blend.

# PORTABLE HEATERS FROM A-Z FOR RENTAL OR SALE

Keep your crew up & running through the winter season! A range of heaters are available for rent by the day, week or month. Our team would be glad to assist you in calculating the BTU's required for your job site. For a price quote, the best-maintained rental heaters, outstanding service & fast delivery, give us a call.

## CONCRETE CURING & THAWING

- Flagro, HeatKing, Wacker Neuson
- Diesel
- 150,000 - 620,000 BTU

## FORCED AIR HEATERS

- LB White
- Kerosene
- Up to 750,000 BTU

## INFRARED HEATERS

- Val6
- Electric / Kerosene
- 51,000 - 140,00 BTU

## INDIRECT HEATERS

- Flagro & Frost Fighter
- Propane, Natural Gas, Kerosene
- 200,000 - 500,000 BTU

## JOBSITE HEATERS - FORCED & INDIRECT

- Frost Fighter
- Propane, Natural Gas, Oil & Diesel
- 500,000 - 700,00 BTU

## PORTABLE ELECTRIC HEATERS

- Patron
- Electric
- 5,100 - 205,00 BTU

## SELF-CONTAINED INDIRECT HEATER

- Frost Fighter
- Propane, Natural Gas, Oil & Diesel
- 390,000 - 780,00 BTU

## CONCRETE CURING BLANKETS

- Proven in maintaining heat of hydration, particularly during the critical early stages of concrete curing.
- Low 0.87 Perm rating, providing superior vapor block during curing
- Available in a range of sizes.

## INSUL-TARP FORM COVERS

- Lightweight design integrates closed cell foam & reflective technology with a protective poly coating.
- Very effective for insulating under concrete slabs in pole barns, crawl spaces, residential, commercial & agricultural radiant heating systems

# What heater is best for you?

## HOW TO CALCULATE BTUS & HEATER RENTAL NEEDS

FrostFighter, a leading manufacturer of heaters, provides an excellent resource and guide on their web site to calculate BTUs and heater rental needs. Visit <http://frost-fighter.com/calculator/> to access the FrostFighter BTU Calculator and Fuel Consumption Rates.

### Step 1: Calculate the Volume of Space to be heated

- Rectangular Cubic Feet: multiply Length by Width by Height to calculate cubic feet.
- Dome - Cubic Feet: calculating the cubic feet of a Dome can be quite completed. Visit <http://frostfighter.com/calculator/> to use Frost Fighter's calculator.

### Step 2: Describe your enclosure

- **Very Loose:** tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - heavy partitioning.
- **Loose:** tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - heavy partitioning.
- **Fairly Loose:** tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - medium partitioning.
- **Fairly Tight:** tight roof and completed walls without insulation, window and door openings enclosed with canvas or plastic - medium to heavy partitioning.
- **Tight:** windows, doors, and elevators installed, walls exist (not dry-walled) - medium partitioning.
- **Very Tight:** windows, doors, and elevators installed, walls exist (not drywalled) - no partitioning.

### Step 3: Choose Desired Temperature-

- 20°F t 60°F

### Step 4: Choose a Heater Unit

- Choose from a range of outstanding

## BTU CALCULATOR

**STEP 1** CHOOSE AND ENTER SHAPE DIMENSIONS OR ENTER A VOLUME: THE NUMBER(S) BELOW CAN'T BE 0

Select Shape:  Rectangular  Dome

Set Room Dimensions: Length:  ft. Width:  ft. Height:  ft.

Volume:  I know the volume:  ft<sup>3</sup>

**STEP 2** CHOOSE THE OPTION THAT BEST DESCRIBES YOUR ENCLOSURE:

Very Loose: Tight roof above plastic or canvas walls - easy to tear or rip/light partitioning

Loose: Tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - heavy partitioning

Fairly Loose: Tight roof and nearly completed walls; door, window and other openings covered with plastic or canvas - medium partitioning

Fairly tight: Tight roof and completed walls without insulation, window and door openings enclosed with canvas or plastic - medium to heavy partitioning

Tight: Windows, doors, and elevators installed, walls exist (not dry-walled) - medium partitioning

Very Tight: Windows, doors, and elevators installed, walls exist (not dry-walled) - no partitioning

**STEP 3** CHOOSE DESIRED TEMPERATURE RISE:

60°F  50°F  40°F  30°F  20°F

**STEP 4** CHOOSE A HEATING UNIT:

IDF 200 Oil/Diesel (220,000 BTU)

**RESULT**

Sorry, the volume cannot be 0. Please recheck your shape dimensions or volume.

# WINTER PPE

## WINTER CLOTHING & PROTECTIVE GEAR

Milton Rents carries a vast selection of professional-grade winter clothing and protective gear from leading manufacturers including M.L. Kishigo & Kinco. Our personal protection gear and products are specifically designed for jobs site, roadwork and highway safety including high visibility vests, hard hats, safety glasses, hearing protection, gloves, rain suits, rubber boots, insulated gear, fall protection devices, harnesses and much more. *Ask about adding your logo and custom embroidery for winter clothing.*

### SAFETY JACKETS, PANTS & BIBS

- Highest rated line of ANSI-2010 Class 3 Bomber Jackets, 2-in-1 Jackets, 8-in-1 Jackets & Parkas. Lined & taped seams.

### HARDHAT LINERS & FACE PROTECTION

- High quality hardhat liners & face protection keeps your crew insulated from the elements.

### INSULATED SAFETY GLOVES

- Exceptional high visibility gloves designed for demanding environments and operator comfort.

### FLEECE & SWEATSHIRTS

- Hooded sweatshirts & fleece available with zippers or as pull overs. Meets ANSI / ISEA 10702010 Class 3 standards.

### HEAD PROTECTION

- Exceptional quality beanies designed to keep your crews head & ears warm throughout the winter season.

### HEATWAVE LINERS

- Maximum warmth & comfort. Cut and sewn, form fitting construction with 4-way stretch. Wear as liner, or lightweight glove

### WATERPROOF JACKET & BIBS

- High visibility gear made from 100% polyester, PU coated oxford fabric. Fully taped seams for waterproof integrity.

### ORIGINAL HI VIS QUICK LAVA

- Patented, Quick Clava. 3 in 1 hat with pull down micro fleece face mask and neck warmer. Made from durable Polyester.

### WORKMAN XTREME GLOVES

- Waterproof & breathable. Puncture/Cut/Heat/Tear resistant. High level of comfort and flexibility. 5x stronger than Steel.

# SNOW FENCE, DRIVEWAY MARKERS & SNOW REMOVAL TOOLS

## **PLASTIC SNOW FENCE**

- Available in Orange & Black, our durable snow fence, posts & stake will keep your job site protected.

## **SNOW PUSHERS**

- Durable Ames TrueTemper snow pushers available in durable Poly. 18"-36" sizes available.

## **SNOW MARKERS WITH CAPS**

- High visibility snow markers - essential for driveways & parking lots for safety & snow plowing. 1" x 1" x 48".

## **WOOD SNOW FENCE & STAKES**

- Available in 4' x 50' quantities. Effective for preventing snow drift from roads onto driveways and other surfaces.

## **SNOW SHOVELS**

- Complete range of pro grade Ames TrueTemper snow shovels made from durable Poly. 16"-326" sizes available.

## **SNOW STAKES - FIBERGLASS**

- Durable fiberglass stakes made from fiberglass. High visibility reflective tape for visibility and safety.

## **SNOW BRUSHES**

- Snow brushes are available in a range of sizes. Made of freeze-resistant material.

## **SNOW ROOF RAKES**

- Snow roof rakes help prevent structural and water damage to your roof. Aluminum handle extends to 17 feet. Durable 22-inch poly blade.

## **WALK BEHIND SPREADERS**

- We carry a full-line of walk behind salt spreaders by Chapin - renown for manufacturing long-lasting, professional-grade spreaders.
